SALLY A. BLANKENSHIP

PROSECUTING ATTORNEY
7th Judicial Circuit
Dearborn and Ohio Counties

Courthouse
Lawrenceburg, Indiana 47025
Telephone 812/537-8884
Fax 812/537-4296

August 31. 2004

Mr. Omar Nuseibeh
Midwest Data Inc
326 Walnut Street
Lawrenceburg, IN 47025

Dear Mr. Nuseibeh:

The Prosecutor's Office along with the Court systems have been pleased with the service we have been receiving from Midwest Data. Ramzi has been a very valuable asset to us in assessing our needs, trouble shooting, and looking ahead to identify any future needs. Whenever we have needed technical assistance or advice, the situation has always been addressed in a very timely professional and efficient manner by all staff at Midwest Data.

Often we all get very busy and only address situations when there is a problem. However, I would like to take this opportunity to let you know how appreciative we have been with the service we have received from Midwest Data and the quality of the support that has been provided.

Thank you.

Sincerely.

Sally Blankenship
Prosecuting Attorney

Cell Phone Range Extender

Don't get stuck without a signal, extend your cell phone coverage area into your car, office, or home with **zBoost**.

69% of wireless users suffer cell phone signal strength loss when using a cell phone in their home, office, or car. Fight dead zones with **zBoost**, the leader in cell phone signal boosters.

- Reduces droped calls and dead zones
- Increases signal strength up to 10 times
- DUAL BAND - works simultaneously with all phones and U.S. carriers (except Nextel)
- Phone is wireless - no direct wire to phone

Classroom Management Software

Teachers today are faced with the challenge and opportunity of using technology to teach. Computers are amazing educational tools, but they can also be a huge distraction to learning. The Internet, instant messaging, email and games are a constant temptation for students.

LanSchool removes these distractions so you can teach more effectively. No classroom management solution is simpler to install, easier to use or better suited for teaching in a computer-based classroom.

Features of LanSchool

The LanSchool software offers many features that allow teachers to monitor classroom computers, control what the computers can access, and even tools to use the computers as teaching aids.

MDI WebWatch

In 1995 Chevron Corporation paid $2.2 million to four female employees to settle a lawsuit in which the women claimed they were sexually harassed with e-mail jokes.

Morgan Stanley was sued for $70 million by workers over racist jokes that appeared in the company's email system.

In 1999 Xerox Corporation fired 40 employees for spending work time-in some cases up to 8 hours a day sending or storing pornographic emails or looking at forbidden web sites.

Employees at Apple, AT&T and IBM were discovered to have visited the Penthouse website 12,823 times in one month!

Server Migration and Virtualization

MDI provides software and services that allow for fast and reliable disaster recovery, system migration and data protection for Windows servers that goes far beyond the standard file backups that most IT companies offer. This allows for bare metal recovery of the Windows operating system, applications such as Exchange and SQL and your critical data.

MDI provides hardware independent restore for physical to physical system (P2P), physical systems to virtual environments (P2V), virtual environments to physical systems (V2P) and virtual environments to virtual environments (V2V). This allows for fast and efficient migration of servers to new hardware or locations.

MDI RealTime

Wireless Wide-Area Networking

Our RealTime project is a state of the art wireless wide area networking, or WAN, endeavor. With WAN, we are connected to United Community Bank, Lawrenceburg, People's Federal Savings Bank, Aurora, and Perfect North Slopes to form a Small Town Area Network, or STAN, allowing us instantaneous access to all participating local area networks at the connected sites. This permits 24 hours a day, seven days a week support, disaster recovery services and resource sharing, one of which is high speed access to the Internet, all at a substantially reduced cost to RealTime clients.

As a part of the RealTime project, MDI dedicated a WAN tower April 12, 2001 at 4 pm. Originally conceived by our owner, Omar Nuseibeh, as a way to benefit existing customers and help other
